Our Mission

Close System is a trusted firm in the Architecture, Engineering & Construction industry that develops & implements solutions to create a better life for our team, clients and community, keeping in mind the needs of the future generation.

Our Vision

Our first priority is to listen and understand, then to validate and articulate your unique, actual needs. This is not a passive process, because oftentimes a client does not know what it needs to achieve its goal. With your decide together which objectives are in your interest.

CORE VALUES

OPEN TO

HONESTY

We work with integrity regardless of challenges we face on our every projects. We believe that commitment to work where we earn our clients and stakeholder's trust pays off in the long run.

OPEN TO

DIVERSITY

We embrace diverse perspectives and continuously challenge ourselves to foster a dynamic, inclusive environment. Through innovation, service excellence, and adaptability, we drive continuous improvement across our systems and practices using the latest technologies.

OPEN TO

FLEXIBILITY

We always challenge ourselves and foster a dynamic environment growth, productivity improvement, better service and preparedness for change. We always achieve progressive and controlled improvement in the effectiveness of business systems and the use of latest technology and practices.

OPEN TO

INDIVIDUALITY

We are aware that we have different characters, skills, beliefs and self-values, we accept and maintain our highest respect for each and every one.

OPEN TO

SUSTAINABILITY

We continuously focus on employee development and differentiation of our services to achieve high quality and professional deliverance to our clients. We exemplify leadership through our work and way of communication.

Organization Chart

Key People

Salim Saleem

GENERAL MANAGER

Salim is the founder of Close System and he is responsible for the overall business strategy, growth plans and financial strength of the company.

He has worked for International companies in the UAE and holds a BaE (Architecture) and MBA from the University of Atlanta.

AHMED ABUHAJAR

Al Ain Branch Manager

Expertise in executing different types of projects including residential, commercial buildings and towers, malls, villas, hospitals and factories. His experience to date has provided him with valuable insight, keen analysis and team approach to implement best practices and achieve business excellence

Slim madani

MBZ Branch Manager

Slim is the Branch Manager of Close System in Mohamed Bin Zaid City.

His exemplary works brings the company to the new level.

Expertise in projects management, construction contracts, time management and planning, Professional scheduling tool, BOQs, monthly interims and claims preparation procedures and regulations

Mohamed Anwar

Dubai BRANCH MANAGER

Mr. Anwar has more than 13 years of experience in profession of Project Management. He is currently the Branch Manager of Close System Dubai.

His expertise includes projects management, construction contracts, time management and planning, Professional scheduling tool, BOQs, monthly interims and claims preparation procedures and regulations

Sharif Farag

Regional Manager

Sharif is the regional manager of Close System and he has more than 20 years of experience in profession of Project Management..

Skilled in managing complex projects, driving business transformation, implementing sustainable practices, cost and risk management, quality assurance, and building strong client relationships.

Nawar Hasan

Oman BRANCH MANAGER

Mr. Anwar has more than 12 years of experience in profession of Project Management. He is currently the Branch Manager of Close System Oman

The background of the slide is a light blue aerial photograph of a city skyline. Overlaid on the right side is a large, dark blue triangular graphic containing a glowing blue wireframe model of a tall building. The title 'BUILDING INFORMATION MODELING (BIM)' is written in large, bold, blue capital letters on the left side. There are decorative halftone dot patterns in the top-left and bottom-right corners.

BUILDING INFORMATION MODELING (BIM)

Close System Consultancy is one of the leading BIM companies in UAE, providing end-to-end Building Information Modeling services. These models align with the fast-moving regional construction environment. Close System is located in Abu Dhabi with a complete coverage area across the UAE. It provides innovative and sustainable BIM solutions to achieve efficient and high-quality project delivery.

CSC HELP CLIENTS ACHIEVE REGULATORY COMPLIANCE, REDUCE ENVIRONMENTAL IMPACT, AND PURSUE SUSTAINABILITY GOALS, INCLUDING NET-ZERO EMISSIONS, THROUGH TAILORED SOLUTIONS AND INNOVATIVE TECHNOLOGIES.

MAIN STREAM SERVICES LINE

Environmental Consultant Studies

We Provide Expert Environmental Study Services, Specializing in Helping Entities Develop Environmental Regulations, Conduct Gap Analysis, And Ensure Compliance with National and International Standards for Sustainability.

Environmental Monitoring

At E&S, We Develop Advanced Monitoring Methods with Cutting-Edge Technology and Expert Staff to Ensure Your Business Complies with Environmental Regulations, Avoids Legal Issues, And Promote a Healthier, More Resilient Environment. Trust Us as Your Key Partner in Compliance and Sustainability.

Environmental Modeling

We Deliver Cutting-Edge Environmental Modeling That Empowers Business Owners To Make Informed and Strategic Decisions with Confidence.

Pollution Control Technologies

Our Consultancy Services in Pollution Control Technologies Help Businesses Identify and Implement Tailored Solutions That Effectively Address Their Unique Needs, Simplifying the Complexity and Reducing the Cost of Pollution Control Measures. Let Us Guide You to a Cleaner, More Efficient Future.

Waste Management Plans

Our Waste Management Consultancy Helps You Optimize Material Usage, Safeguard Ecosystems, Achieve NetZero Waste Certification, And Reduce Taxes, Enhancing Your Reputation for a Cleaner, More Sustainable Future.

HSE Consultancy & Training

We Help to Create a Supportive and Flexible Work Environment and HSE Plan Ensuring the Safety of the Persons, the Protection of the Environment and Of the Facilities.

DETAILED SERVICE

Environmental Consultant Studies

- Developing environmental regulations and performing gap analysis
- Services for Env Permitting
- Preliminary Env Review (PER)
- Studies on Env Baselines
- Conducting Env Impact Assessments (EIA)
- Development of Env Management Plans (CEMP, OEMP & DEMP)
- Formulation of Env Action Plans (EAP) and Mitigation Plans
- Env Audits
- Consulting on Sustainability
- Corporate studies on GHG and carbon footprints.
- Conducting Energy Audits

Environmental Monitoring

- Monitoring of Ambient Air Quality.
- Stack Emission Monitoring.
- Workplace Air Quality Assessment.
- Ambient Noise Levels Monitoring.
- Monitoring of Breathing Air Quality.
- Personnel Monitoring for Air and Noise.
- Light Levels Monitoring.
- Sampling and Analysis of Drinking Water.
- Sampling and Analysis of Groundwater.
- Sampling and Analysis of Wastewater and Industrial Effluents.
- Analysis of Seawater Quality.
- Soil Sampling and Analysis.

Environmental Modeling

- Modelling for Air Dispersion
- Modelling for Odor Dispersion
- Modelling for Noise Dispersion
- Hydrodynamic Modelling

DETAILED SERVICE

Pollution Control Technologies

- Pollution Prevention & Control
- Consulting and Design Emission Control Equipment (Filter Bags, Cyclones, Electrostatic Precipitators,)
- Water Pollution Control Technologies
- Soil Remediation and Treatment

Waste Management Plans

- Strategies for Waste Reduction, Reuse, and Recycling
- Plan for Construction Waste Management
- Plan for Medical Waste Management
- Management of Hazardous Waste
- Industrial Wastewater Management

HSE Consultancy & Training

- Implementation of Environmental Permit Condition
- Occupational Health & Safety
- Handling, Storage and Management of Hazardous Materials
- Pollution Prevention and Control
- Solid and Hazardous Waste Management Training
- Training in Emergency Management
- Safe Operation Training

Mercury Recovery Technology System

We present this technology in collaboration with our partner NordTechConsulting & Trading Company, based in Sweden, focusing on the following sectors:

- Oil & Gas
- Recycling
- Mercury-contaminated waste management
- Construction & Mining

This Technology Include:

- Distiller Concept
- Rotating Process Distillers
- Batch Process Distillers
- Equipment for treatment of Hg-contaminated sludge

Zero-Waste Management. Sustainable Solutions

Working towards zero waste is a commendable and challenging objective, requiring a reduction in generated waste and a commitment to diverting as much as possible from landfills. Our aim is to assist you in your journey toward zero waste, earning recognition through a gradual approach. Begin with manageable changes and gradually embrace more sustainable practices over time, and we'll support you every step of the way
